Engineering Scholarship

A paid work experience or internship is a very valuable on-the-job experience that helps students learn and mature in a professional working environment. It also provides the opportunity for the student to preview their chosen

career path from a perspective that cannot be learned in the classroom. Greenville Tool & Die has offered Co-op and nationally recognized Apprenticeship programs for more than 50 years. For qualifying students choosing a professional engineering career path, Greenville Tool & Die offers:

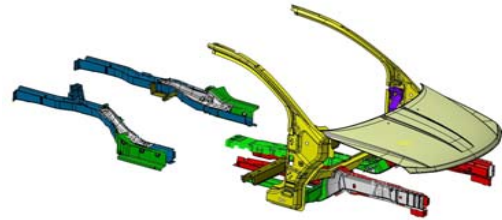

- ◆ Renewable engineering scholarship.
- ◆ Substantial tuition allowance.
- ◆ Text book allowance.
- ◆ Paid work experience.

At the completion of the work experience, the student will have:

- ◆ The option of transferring credits to pursue a 4-yr Engineering degree.
- ◆ Developed a strong work ethic.
- ◆ Potential full time employment and additional educational opportunities with Greenville Tool & Die.

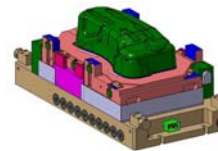

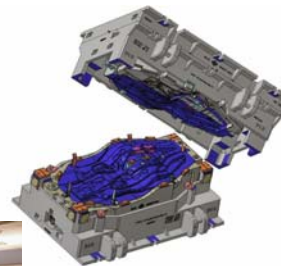

Selection Criteria

- ◆ High School or College CGPA 3.25.
- ◆ Engineering Career Path.
- ◆ Letter(s) of Recommendation.
- ◆ Student Narrative.
- ◆ Availability To Start Work Experience After High School Graduation.
- ◆ Mutually Agreeable College of Choice Selection.
