

## GREENVILLE TOOL & DIE COMPANY IS BACK TO WORK

After several weeks off work following Michigan's Stay Home, Stay Safe order Greenville Tool & Die cautiously resumed our regular work schedule. Greenville Tool & Die continues to monitor the situation and with direction from government officials will do what is recommended and implement the best practices for our safety and well-being. Our employees are our number one asset. We thank each and every one of you for your cooperation and understanding during this difficult time.

Apprentice Tool & Diemaker Branden Luscher and our new 5-axis CNC vertical machining center are pictured above. The Okuma MU-4000V Machining Center combines high efficiency and accuracy to deliver high-quality workpieces. Simultaneous 5-axis surfacing and turning enables one-chuck multi-sided machining, along with outstanding surface quality and dimensional accuracy. The machining center is an excellent addition to our arsenal.
